### **A message from the wulf.**

As an organization, the wulf. serves the greater Los Angeles area by supporting artists through grant applications/sponsorships and providing a space for artistic experimentation. It has evolved from a performance series, run in a loft by two individuals, into a community of artists that support each other artistically. This community, while rooted and primarily residing in Los Angeles, rather naturally extends to other parts of the world (such as London).

On that note, we would like to thank John, Markus, and Tim, whose idea it was to have a night of music connected to the wulf. as part of the 'music we'd like to hear' series. This 'theme' is inextricably linked to the loose mission we hold the wulf. to. That is, that everybody who participates does so because they want to, because they love to, and because they are interested in exploring and experimenting to the extent possible.

Tonight's event consists of music from members of the wulf. community living in Los Angeles (Clark, Steenberge, Schultz, Winter) and abroad (Kudirka, Susam). We hope you enjoy what we think is a nice array of fantastic and sometimes fantastically odd works. While it is only a glimpse of what we do (to date we have presented 70+ concerts in under 2 years), we hope the events tonight give you some sense of the exciting spirit that the wulf. embraces.

Regards,

Eric KM Clark  
Gary Schultz  
Michael Winter  
co-directors, the wulf.
